HARSHIT SAINI

Flutter Developer | Cross-Platform Mobile Engineer | Production App Development

Jaipur, India | +91-63504-81444 | harshitsaini0133@gmail.com

LinkedIn | GitHub | Portfolio | TryHackMe

PROFESSIONAL SUMMARY

Flutter Engineer with **2 years of professional experience** building and releasing production cross-platform mobile applications across fintech, payments, quick-commerce, HR-tech, booking, mobility, subscription, and marketplace products.

Strong in **Flutter, Dart, Object-Oriented Programming (OOP), asynchronous programming (async/await, Futures, Streams), BLoC/Provider, Clean Architecture, MVVM, Firebase, REST APIs, third-party integrations, payment systems, local caching, and responsive UI** .

Experienced in taking features from product requirements and UI implementation through testing, performance tuning, Play Store/App Store release, and production support.

Delivered **25% faster load times**, smooth **60 FPS** UI/animation performance, and **95% crash-free production stability**.

TECHNICAL SKILLS

Mobile: Flutter, Dart, Android, iOS, Cross-Platform Mobile Development

Programming: Object-Oriented Programming (OOP), Asynchronous Programming (async/await, Futures, Streams), Clean Code Principles

State Management: BLoC, Provider

Architecture: Clean Architecture, MVVM, Modular Architecture, MVC, Scalable Codebases

Backend & Data: Firebase, Cloud Firestore, Firebase Authentication, Firebase Cloud Messaging, REST APIs, Supabase

Integrations: PayU CheckoutPro, Razorpay, Payment Gateways, Wallet & Payment Flows, Google Maps API, Socket.io, Third-Party SDK Integration, Subscriptions, Secure APIs

Performance & Reliability: Mobile Performance Optimization, Local Caching, Lazy Loading, UI Rendering Optimization, Push Notifications, Real-Time Features, 60 FPS Animations

UI/UX: Figma, Responsive UI, Custom Painter, Rive, Lottie, Hero Animations

Tools & Delivery: Git/GitHub, Code Reviews, CI/CD, Postman, Android Studio, VS Code, Google Play Console, Apple Store Connect

PROFESSIONAL EXPERIENCE

Jigrotech Solutions **Mar 2026 – Present**

Flutter Developer *Jaipur*

- Own Flutter feature delivery across **four concurrent production applications** spanning EV charging, AI-enhanced fintech, quick-commerce, and HR-tech, taking features from design and implementation through Play Store and App Store release.
- Built wallet and payment flows for **Jakhar's PowerPoint** using PayU CheckoutPro, supporting wallet top-ups, charging-slot booking, and charging-session initiation; released on Google Play and the Apple App Store.
- Extended **Hisab Pro**, an AI-enhanced ledger and expense-management application, with Flutter functionality across core bookkeeping workflows.
- Built fast product browsing and ordering features for **Blink Basket** and employee-facing attendance, payroll, and HR workflows for **JigroHrms**.

Gohashinclude **Nov 2024 – Feb 2026**

Flutter Developer *Jaipur*

- Built and shipped **5+ cross-platform mobile applications** using Flutter and Dart with Clean Architecture, MVVM, modular design patterns, and clean-code practices.
- Implemented reactive and asynchronous state management with **BLoC, Provider, Streams, and Futures**; optimized REST API integration, local caching, and lazy loading to reduce application load time by **25%.**
- Integrated Firebase Cloud Messaging, payment gateways, Google Maps API, and backend services for push notifications, real-time functionality, and location-based features.
- Profiled UI rendering to sustain smooth **60 FPS** animations and improve responsiveness across releases.
- Collaborated with backend, QA, and design teams through Git workflows, code reviews, and CI/CD pipelines while maintaining **95% crash-free production stability**.

PROJECTS

Jakhar's PowerPoint — EV Charging App (Google Play & App Store)

Built an EV-charging application that lets users top up an in-app wallet, book charging slots, and initiate charging sessions at partner stations.

Tech: Flutter, Dart, BLoC, PayU CheckoutPro, Google Maps, Socket.io

JigroHrms — HR & Workforce Management App (Google Play & App Store)

Built employee-facing HR workflows including location-based attendance, real-time check-in/check-out, leave requests and approvals, payroll/payslips, self-service dashboards, and approval notifications.

Tech: Flutter, Dart, .NET backend

Beavr Lifestyle — Consumer Lifestyle App (Google Play , App Store)
Developed and deployed a production consumer application with optimized API handling, Firebase push notifications, responsive UI, and polished custom animations.
Tech: Flutter, Dart, Firebase, REST APIs, Go, Custom Painter, Rive, Lottie

ZiniGo — Travel Booking App (Google Play , App Store)
Contributed to a Bhutan travel-booking mobile application with hotel search, itinerary planning, local booking flows, REST API integration, and payment gateways, delivered across three phases.
Tech: Flutter, Dart, REST APIs, Payment Gateway Integration

ShineeTrip — Booking App (Google Play , App Store)
Contributed to application UI, core mobile functionality, API integration, and overall user experience for a travel-focused Flutter application.
Tech: Flutter, Dart, API Integration

Attendora — Attendance Management App (Google Play , App Store)
Developed role-based attendance tracking with real-time attendance logging, reporting, automated notifications, and HR-related workflows.
Tech: Flutter, Dart, Firebase, Cloud Firestore, Razorpay

Fast2Book — Service Booking App (Google Play , App Store)
Built an on-demand booking application for service discovery, appointment booking, secure payments, real-time status updates, and notifications.
Tech: Flutter, Dart, Firebase, Payment Gateway Integration

RideFizz — Ride Sharing Application (Google Play)
Developed ride posting, route search, seat booking, in-app chat, ratings, and reviews for a ride-sharing mobile experience.
Tech: Flutter, Dart, Firebase, Google Maps API

EDUCATION

Poornima College of Engineering — **2021 – 2025**
BTech in Cyber Security — *Jaipur*

Marwar International Academy — **2021**
Higher Secondary Certificate (HSC), 75.86% — *Makrana*

CERTIFICATIONS

Certified in Cybersecurity (CC), ISC² — Jan 2025
Validated knowledge of network defence, incident response, and access controls.

Advent of Cyber 2024 Certificate — 2024

OPSWAT Cybersecurity Fundamentals Associate — 2024

Introduction to Critical Infrastructure Protection (ICIP), OPSWAT Academy — Oct 2024

Google Cybersecurity Professional Certificate, Coursera — 2024
Foundations of Cybersecurity, Risk Management, Network Security, Linux & SQL.

Foundations of Cybersecurity — 2024

Mastercard Cybersecurity Job Simulation, Forage — 2023
Designed phishing simulations and analysed results for risk assessment.

Seminar on Tackling Cyber Crime, Rajasthan Police & CII — Apr 2023

ACHIEVEMENTS

- Secured **2nd place among 20 teams** in a Robotic Car Race Tournament (2021).
- Represented district in State-Level Kabaddi Tournaments (2019).
